

84TP5, 86TP5 Trim Plates for ES84 and ES86 Series

Electric Strikes

These Trim Plates can easily compensate for minor irregularities in the Lip Bracket cutout.

Make sure the Trim Plate series label matches the Strike series you are installing.

- ES84 = Low Profile Electric Strikes
- ES86 = Standard Profile Electric Strikes

Position the Trim Plate on the frame cut-out to verify fit and coverage.

Adjust cut-out if required.

Bend the four tabs to hold the Trim Plate onto the frame.

For a tighter fit, pre-bend the two long flange tabs before sliding onto the frame where space allows.

Secure the strike to the frame as per strike installation instructions.
