Certified

Extend the power of your Workday time tracking software with b-comm for Workday from dormakaba, the comprehensive time collection platform with multiple features available in the Workday market. Easily manage your human resources, planning, and financial processes with the seamless integration of trusted ERP interface. dormakaba truly understands what

One solution that benefits all

Increase your operational efficiency with a single integrated platform for your entire enterprise and reduce manual employee input with easy to use, intelligent devices. Whether via RFID or fingerprint biometrics, b-comm for Workday not only simplifies time tracking and data collection but also increases employee engagement with internal messaging, improved communication and individualized user experiences.

01 Adding value to your human resources.
b-comm for Workday offers a dependable time collection system of high quality with an extensive Workday integration that your HR managers will trust for years to come.

- Accuracy of data prevents duplicate timesheet transactions, therefore reducing the effort to fix errors
- Reduce manual inputs and back-office work
- Enhance legal compliance
- Increase employee engagement with individualized user experiences
- Providing an individual user experience at the dormakaba terminals

02 A big payoff for your payroll.
dormakaba's intelligent terminals help streamline your payroll processes.

- Reduce payroll errors and increase the accuracy of data
- Monitor employee attendance and OnPremise status
- Allow multiple job input for employees
- Enforce meal and break policies
- Prevent early clock-in prior to the scheduled start
- Reduce or eliminate unauthorized overtime

03 Trusted platform for your IT.
Reliable, accurate, and secure: your IT department will truly appreciate the benefits of the trusted and comprehensive time collection platform.

- Total compliance: meet regulatory frameworks
- OnDemand (cloud) or OnPremise solutions
- A trusted and certified Workday global partner
- Continuous 24/7 data collection
- Multiple time collection device options to match your corporate style
