

Keyscan EC1500

1-cab elevator floor access control unit

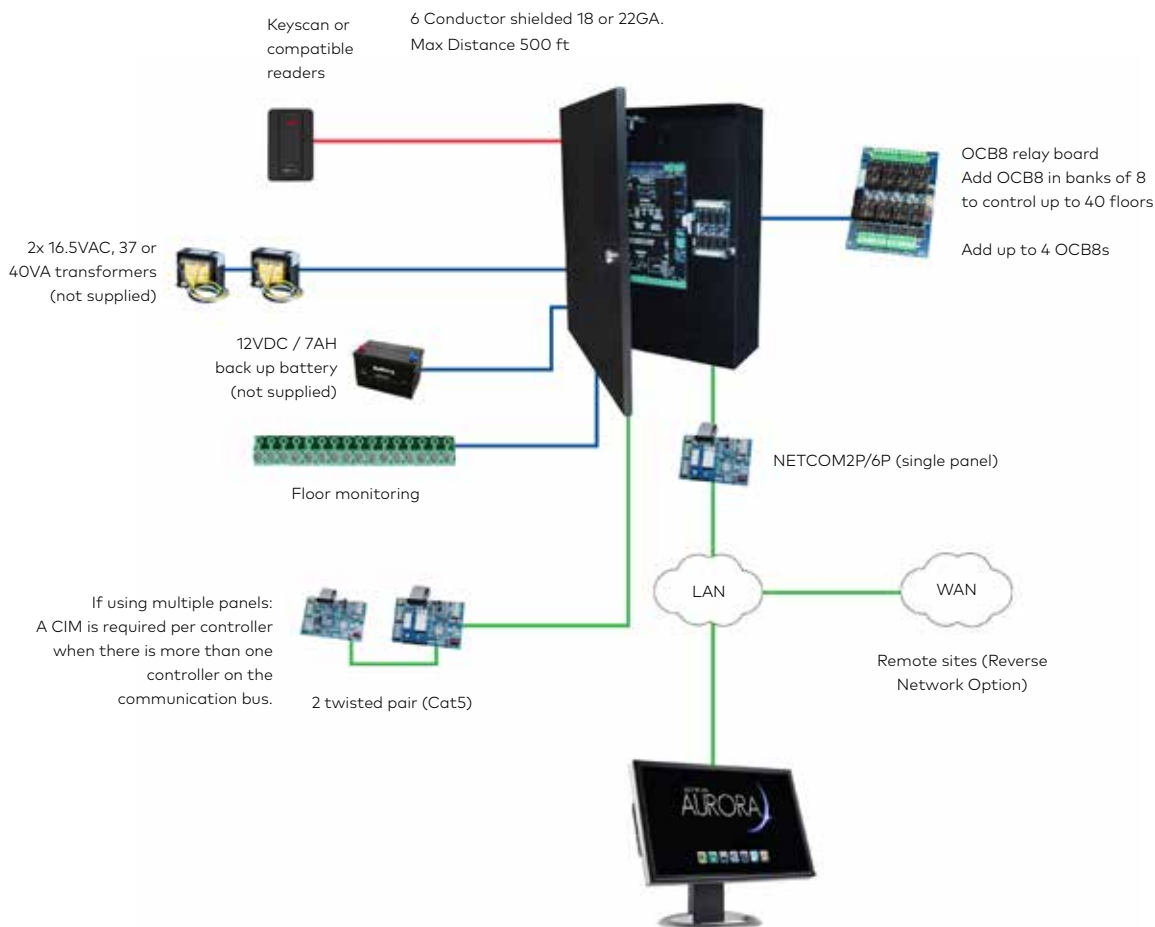

With an emphasis on innovation and sustainability, you can trust the Keyscan EC1500 elevator floor control unit for smart access control technology and system design flexibility. Keyscan EC series of elevator floor controllers are compatible with Keyscan CA series controllers and merge security with convenience. The EC series can satisfy any new installation requirement or augment existing Keyscan systems while, in many cases, utilizing existing infrastructure including credentials.

EC1500 includes:

- EC1500B ACU board
- 1-OCB8 relay board
- 1-DPS-15 power supply
- 1-black metal enclosure with lock and tamper switch

Keyscan EC1500 features:

- Network TCP/IP ready
- Easily configurable reader settings supporting many Wiegand protocols
- Auto-transfer protocol uploads transaction buffer if interruption occurs
- Dual processors
- Lock down and global communication among multiple ACUs, server and sites (requires CIMs and CIM Link)
- Multiple inputs and outputs for expansion capability
