

CONCEALEO® Hinges

The concealed
solution for
perfect closure.

Two strong global brands—Dorma and Kaba – have combined forces and are now offering you a comprehensive portfolio of smart & secure access solutions, all from one, reliable source.

Our new product portfolio includes everything from locks and keys to a fully networked electronic access solution, and everything from door closers and automatic doors to a mobile partition system.

All supported by a comprehensive service network.

The concealed solution for perfect closure

CONCEALEO® - the new trend setter, combining high aesthetics with demanding functionality. Robust, maintenance free and hidden. A practical yet discreet performance hinge for your needs.

CONCEALEO® door hinges are setting the trend. Even though demands for functionality are growing - modern door hinges cater to a wide range of load-bearing capacities - the hardware needs to be as invisible as possible from the outside.

With the CONCEALEO® product range, dormakaba provides an all-embracing product line-up. With load-bearing capacities of 40 to 350 kilograms per pair, it covers the entire door spectrum from the simple domestic door to the highly complex commercial property door. The choice of material provides the basis for creating a range of concealed hinges for all door weights. dormakaba only uses true steel for the hinge's body which is machined, not cast.

Door manufacturers benefit on no less than two counts when they use CONCEALEO® door hinges: thanks to hybrid technology, each CONCEALEO® model comes with a different load-bearing capacity, yet all models within a group share the same dimensions and are based on only one milling pattern, with one cut-out for all models – a detail that is not found anywhere else on the market.

The design principle forms the heart of the CONCEALEO® hinge range. A symmetric four-knuckle joint evenly transfers the forces from the door-leaf into the frame. It is connected to the hinge elements by pistons which support the hinge transversally and channel the opening and closing forces in circular fashion in all directions. This principle gives doors a smooth mechanical action. It reliably takes up door-leaf weights and, together with

the solid material used, provides a high level of stability – even in conjunction with extreme weights and frequent use. CE certificates verify long-term, maintenance-free operation both in terms of supporting door weight as well as smooth opening and closing movement. Finally, all fixings are concealed, leading to a truly invisible component.

CONCEALEO®

AS 350, AH 300

3D adjustable concealed hinge suitable for extra heavy duty wood, aluminium and steel doors with weight upto 350kg and minimum door thickness 40mm.

Size:	270mm x 30/28mm x 35mm								
Material:	AS350: Base and Joints made of steel AH300: Base made of Steel and Joints made of Aluminium								
Weight Capacity:	AS350 for doors upto 350Kg. AH300 for doors upto 300Kg. 2 hinges per door.								
Finishes:	All eleven finishes available. Refer to page 7. SNP - Standard Finish.								
Salient Features:	'Safe & Sound' break-in protection 'Silent' Soundless closing 'Discrete Design' Plates								
Certifications:									
- Fire Resistance	Suitable for smoke control & fire rated doors.								
- CE Mark-ETA	Classification Code <table border="1" style="display: inline-table; vertical-align: middle;"> <tr> <td>4</td><td>7</td><td>7</td><td>1</td><td>1</td><td>4</td><td>1</td><td>14</td> </tr> </table>	4	7	7	1	1	4	1	14
4	7	7	1	1	4	1	14		
- UL Listed - ANSI/UL10C	Test reference UL R39352.								
- Burglar Resistance	Tested to RC2								

SPECIFICATION TEXT

Concealed hinges to be dormakaba Concealeo series with 3D adjustment, solid metal machined body fully concealed when door is in closed position. Invisible screws fixings, suitable for minimum 40mm thick doors, with possibility to open 180°. The 3D adjustment limits to be ±3mm in sides, ± 3mm in height and ±1mm in compression.

Hinges to be Fire rated as per ANSI/UL10C and ETA, burglar resistant (RC2) certified. Hinges to have Five Axis Joint System, with four knuckles and have a Piston Guide System for smooth guided opening/closing cycles. For door upto 350kg use Concealeo AS350 with Steel base and joints. For door upto 300kg use Concealeo AH300 with Steel base and Aluminium joints.

CONCEALEO®

BS 250, BH 200

3D adjustable concealed hinge suitable for heavy duty wood, aluminium and steel doors with weight upto 250kg and minimum door thickness 40mm.

Size:	235mm x 30/28mm x 35mm								
Material:	BS250: Base and Joints made of steel BH200: Base made of Steel and Joints made of Aluminium								
Weight Capacity:	BS250 for doors upto 250Kg. BH200 for doors upto 200Kg. 2 hinges per door.								
Finishes:	All eleven finishes available. Refer to page 7. SNP - Standard Finish.								
Salient Features:	'Safe & Sound' break-in protection 'Silent' Soundless closing 'Discrete Design' Plates								
Certifications:									
- Fire Resistance	Suitable for smoke control & fire rated doors.

Hinges to have Five Axis Joint System, with four knuckles and have a Piston Guide System for smooth guided opening/closing cycles. For door upto 250kg use Concealeo BS250 with Steel base and joints. For door upto 200kg use Concealeo BH200 with Steel base and Aluminium joints.

CONCEALEO®

CS 300, CH 200, CH 150

3D adjustable concealed hinge suitable for heavy duty wood, aluminium and steel doors with weight upto 300kg and minimum door thickness 45mm.

Size:	235mm x 37/35mm x 45mm
Material:	CS300 : Base and Joints made of steel CH200 : Base made of Steel and Joints made of Aluminium CH150 : Base and Joints made of Aluminium
Weight Capacity:	CS300 for doors upto 300Kg. CH200 for doors upto 200Kg. CH150 for doors upto 150Kg. 2 hinges per door.
Finishes:	All eleven finishes available. Refer to page 7, SNP-Standard finish.
Salient Features:	'Safe & Sound' break-in protection 'Silent' Soundless closing 'Discrete Design' Plates

Certifications:

- **Fire Resistance** : Suitable for smoke control & fire rated doors.
- **CE Mark-ETA** : Classification Code

CS300, CH200	4	7	7	1	1	4	1	14
CH150	4	7	7	0	1	4	1	14

Note: CH150 is not fire rated hinge

SPECIFICATION TEXT

Concealed hinges to be dormakaba Concealeo series with 3D adjustment, solid metal machined body fully concealed when door is in closed position. Invisible screws fixings, suitable for minimum 45mm thick doors, with possibility to open 180°. The 3D adjustment limits to be ±3mm in sides, ±3mm in height and ±1mm in compression.

Hinges to have Five Axis Joint System, with four knuckles and have a Piston Guide System for smooth guided opening/closing cycles. For door upto 300kg use Concealeo CS300 with Steel base and joints. For door upto 200kg use Concealeo CH200 with Steel base and Aluminium joints. For door upto 150kg use Concealeo CH150 with Aluminium base and joints.

CONCEALEO®

DSS 120, DS 120, DH 120, DA 100

3D adjustable concealed hinge suitable for wood, aluminium and steel doors with weight upto 160kg and minimum door thickness 35mm.

Size:	180mm x 27/24mm x 30mm
Material:	DSS120 : Base and Joints made of Stainless Steel DS120 : Base and Joints made of Steel DH120 : Base made of Steel and Joints made of Aluminium DA100 : Base and Joints made of Aluminium
Weight Capacity:	DSS120 for doors up to 160Kg. DS120, DH120 for doors up to 120Kg. DA100 for doors up to 100Kg. 2 hinges per door (2m x 1m).
Finishes:	All eleven finishes available. Refer to page 7. SNP - Standard finish.
Salient Features:	'Safe & Sound' break-in protection 'Silent' Soundless closing 'Discrete Design' Plates

Hinges to have Five Axis Joint System, with Two knuckles for smooth guided opening/closing cycles. For door upto 40kg use Concealeo HA 40 N with Aluminium base and joints.

CONCEALEO®

CONNECT

KÜ – Cable transition

Robust stainless steel spiral with stainless steel receptacle for inserting flexible connecting cables up to 8 mm Ø. Ensures a pinch-free and tamper-proof connection between panel and door and window frames

KÜ 480

For door hinges with a pivot of up to 36 mm and opening angles up to 180°, flexible length of the spiral: 370 mm, Fitting dimensions of the receptacle (W x H x D): approx. 24 x 480 x 17mm
Order No. 15813000

KÜ 480

LK-12 Detachable cable transition connector

Detachable cable transition connector for the installation into the door frame, can be combined with the cable transitions KU and spiral cables KS. 12-pole, with rear connecting terminals.
Order No. 15813010

Dimension (W x H x D): 24 x 300 x 3 mm
Dimensions incl. circuit board (W x H x D): 24 x 300 x 20 mm
Maximum current rating: 2 A
Maximum voltage: 48 V DC
Maximum cable section for each connecting terminal: Ø 0.8 mm

CONCEALEO®

ACCESSORIES

Safety plate for CONCEALEO®

Screwing of concealed hinge into wooden frames used where the door is installed in cladding structure, or when the frame part is a cladding not enough to receive a hinge

Cut-out	Model	Safety Plate
A	AS350, AH300	SP01A
B	BS250, BH200	SP02B
C	CS300, CH200, CH150	SP03C
D	DH120, DA100	SP04D
E	EA60 N	SP05E
F	FA60	SP06F
H	HA40 N	SP07H

Retainer for CONCEALEO®

Screwing of concealed hinge to steel frames, the retainer is adapted to the respective profile of the steel frame. Retainer are used for unrebated door, available upon request.

Cut-out	Model	Retainer
A	AS350, AH300	RT01A
B	BS250, BH200	RT02B
C	CS300, CH200, CH150	RT03C
D	DH120, DA100	RT04D
E	EA60 N	RT05E
F	FA60	RT06F
H	HA40 N	RT07H

CONCEALEO®

Hinge placement for standard door weight

As a standard, we recommend installing two hinges per door. Top and bottom hinges should be located 150mm and 250mm respectively from top and bottom edge of the door. Adding third or more hinges does not increase the rated capacity. Consult factory for special applications.

Eq. = minimum 300 mm
