

ED400-IG to ED250-IG Retrofit kit

Cost-effective, easy to install retrofit kit
dormakaba now offers the ED400-IG to ED250-IG retrofit kit.

This kit allows for an easy conversion of an ED400-IG unit to the dependable ED250 operator while utilizing the existing installed case, saving significant time and expense.

The ED400 motor/gearbox assembly, control, spindle housing assembly and sled base are removed and replaced by the ED250-IG Retrofit Kit. This kit provides a new spindle housing assembly, sled base, spacers, sprockets and chain. The kit also includes an ED250 operator with relocated

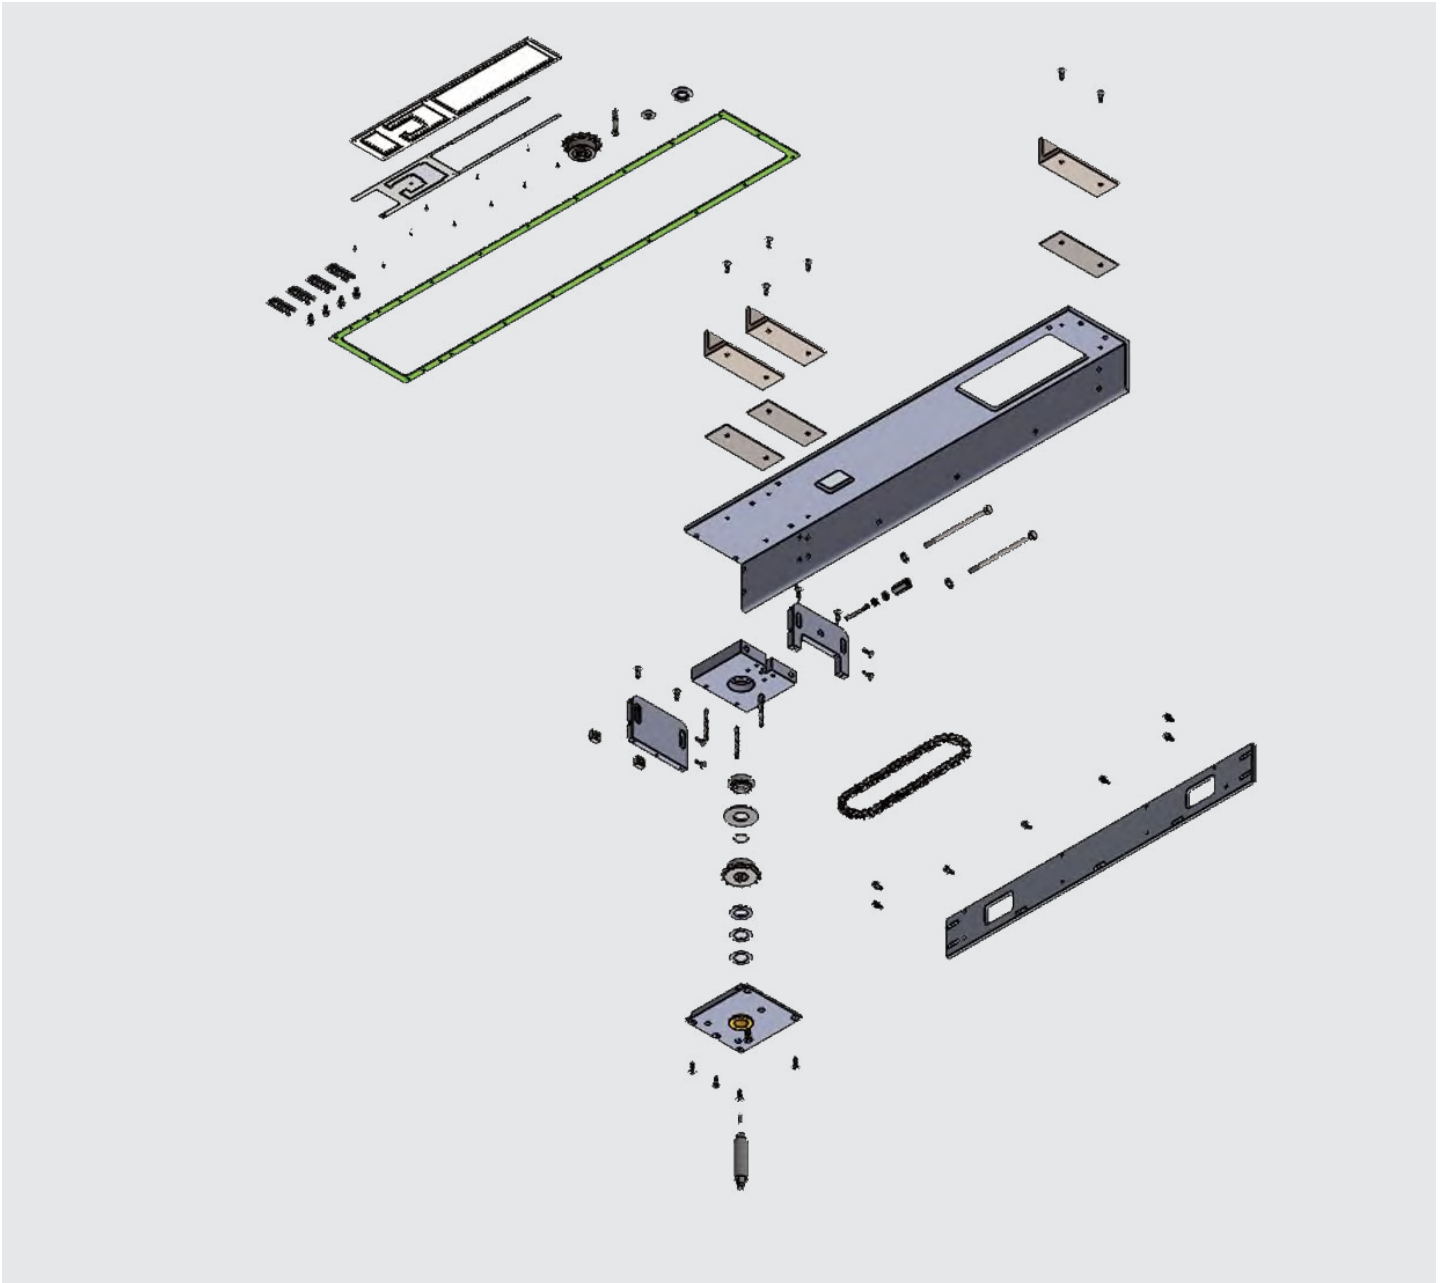

controls and drive sprocket specifically configured for in-ground applications. The existing spindle and arm are reused.

Kit contents

Part number	Description	Price
