

PURE[®] Sonos Enhanced Privacy Sliding Glass System

Design innovators

Over 25 years ago dormakaba revolutionized the glazing industry when we introduced our Dri-Fit rail to the world. With over 40 years of experience, dormakaba Interior Glass Solutions continues to be a market innovator. Leading the way with thoughtful, beautiful, and quality designs, we are often imitated, but never duplicated. dormakaba is the clear choice for making your project visibly inviting, whether you are selecting manual sliding doors for an open office environment, framed or frameless glass walls for conference rooms, or moveable glass walls that let you catch all the action in a

stadium or arena. When you choose dormakaba, you choose high quality products made to last.

The clear choice for sound control

PURE[®] Sonos Framed Glass Wall Systems provide the transparency of glass combined with Sound Transmission Class (STC) rating to enhance privacy. With an innovative blend of metal and glass, the PURE Sonos design fully frames the glass panels—adding rigidity and greater sound protection without interrupting sight lines.

Features that stand out above the noise:

- Frameless sliding door with an STC rating of 35
- Elegant design with minimal framing and footprint
- Compatible with 1/2" tempered monolithic or laminated glass
- Optional SoftClose™
- Option for 1 3/4" thick door panel
- One-of-a-kind electronic locking option for access control

Unparalleled design

Experience uninterrupted sightlines and an expansive feeling of space with frameless glass sliding panels. Embrace modern minimalism with sleek aluminum tracks and discreet hardware.

Effortless customization

Explore an extensive range of creative design possibilities. Fixed and sliding panels can be combined in a wide variety of configurations. Incorporate wood sliding panels to add warmth and additional sound dampening to any space. Standard finishes include clear anodized, black anodized and similar to satin stainless. Custom powder coating is also available.

Sound control reimagined

Enjoy the benefits of open, airy spaces without sacrificing acoustic comfort. PURE Sonos boasts an impressive STC rating, effectively reducing noise transfer between rooms. High quality rollers and optional SoftClose mechanisms ensure smooth, silent gliding, minimizing door noise and preserving tranquility. Suitable for a wide range of applications from offices to healthcare spaces.
