

MUTO

Ceiling mount recessed (CE-R)

Features

- DORMOTION damping mechanism (DORMA SoftClose®)
- Door position status indicator
- Self-closing
- Suitable for monolithic and tempered laminated glass, and wood doors.
- Supports door weights up to 330 lb (150 kg).

Hidden convenience

Designed for maximum transparency, MUTO Ceiling Mount Recessed (CE-R) is the newest addition to the MUTO family of manual sliding glass doors.

MUTO CE-R systems fit within a 3-3/4" (95) ID minimum width ceiling channel, while still providing the same features for enhancing ease of operation and convenience as non-recessed models.

Door adjustment remains hassle-free with customized tooling that integrates with the slim channel.

MUTO CE-R offers all the solutions available in non-recessed configurations: single- or double-door, with sidelites, self-closing, and synchro.

Note: Door width and height can vary; must not exceed weight limit

MUTO Recessed Mount CE-R systems provide the same features for enhancing ease of operation and convenience as non-recessed models.

Specifications

Max weight capacity	330 lb (150 kg)
Height adjustment	+ /- 3/16" (5)
Tempered laminated/ monolithic glass	Yes
Glass thickness	5/16"-1/2" (8-12)
Wood door thickness	Up to 1-31/32" (50)
ANSI/BHMA Certified A156.14 Grade 1	Yes
Warranty	2 Years
Cushioning for closing/opening cycle	DORMOTION
Self-close	Yes

Note: Width measurements are shown as inches followed by millimeters; for example, 1" (25).
