

Basic-XS

Compact standard electric strike

dormakaba 

Access at the push of a button

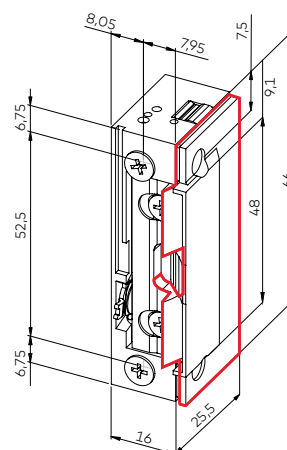

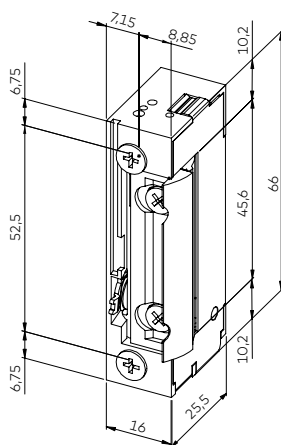

Combined with intercom systems, for example, electric strikes from dormakaba can provide easy-release access to most doors encountered in private, public and commercial premises. They offer pushbutton convenience for effective control of who is allowed into a building and therefore enabling the secure locking of doors in various service duty categories. The new standard electric strike series Basic-XS offers high flexibility for building planning with its ultracompact housing and multi-voltage feature.

Product attributes

- Multi-voltage 12-24 V AC/DC in one version
- Ultra-compact housing enables installation even in extreme narrow door frames
- Non-handed design for universal installation
- Radius latch
- Optional: latch guide
