dormakaba Mortice locks for timber and steel doors

- a complete range of high quality products

dormakaba locks offer the very highest standard of quality and functional reliability. With the use of high-grade materials, precise production techniques and a comprehensive quality management system, all dormakaba locks meet demanding technical specifications. Additionally, locks conforming to the technical requirements of DIN 18251 and EN 12209 also offer unbeatable ease of use and security features. Locks are supplied complete with fixing screws, strike plate and dust box.

Benefits at a glance

For the architect

- The high quality satin stainless steel surface finish satisfies very high demands with respect to the appearance of the door furniture.

For the trade

- The package contains the Mortice lock with screws and strike plate
- Non-handed lock version to reduce storage space
- Identical fixing screws for lock and strike plate simplify material management
- Having been assigned category of use grade 3 per EN 12209 the locks can also be reliably installed in buildings subject to heavy pedestrian traffic frequencies
- Successfully completed in-house testing to 1,000,000 cycles.
- dormakaba Mortice locks have following variations:

backset	60 mm
	80 mm
forend- square	20 mm
rounded	20 mm
square	24 mm
rounded	24 mm

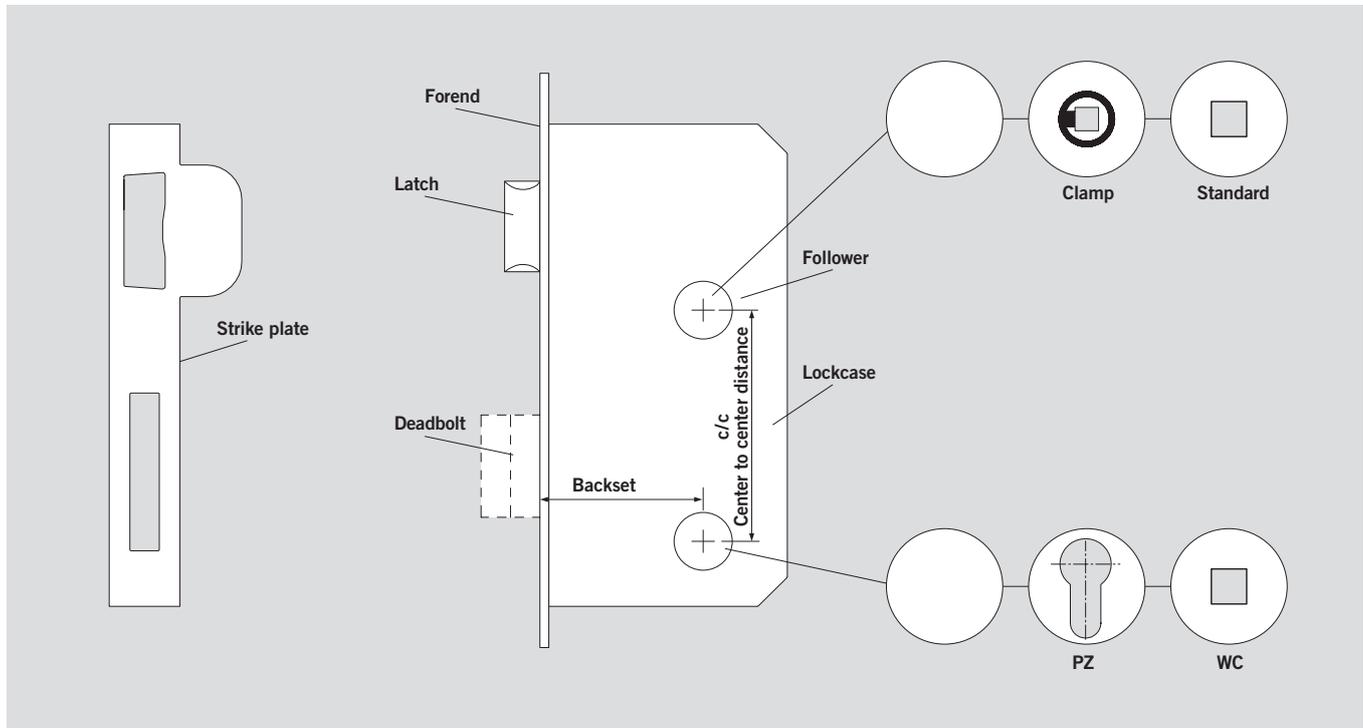

For the installer

- dormakaba locks offer their precision by a simple, compatible assembling in standard door cuts.
- dormakaba locks have consistently uniform sizes each and are interchangeable.
- dormakaba locks can be used universally by changing the latch handing, without using a tool.
- dormakaba locks achieve a long life because of a robust maintenance-free lock mechanism, even under difficult operating conditions.
- dormakaba locks can be commonly used with standard fittings, e.g. standard lever handles, profile cylinders, roses/escutcheons/backplates etc.
- dormakaba locks are subject to strict quality requirements and are tested and certified according to EN 12209. For applications with increased security requirements the locks are tested and certified in accordance with national and international standards.
- dormakaba locks are fire tested and Certifire approved - CF 267.
- Intumescent packs are only required for FD60/E60/EI60 fire rated doors.

Features	300 CE Premier
Grade EN 12209	3
CE	x
DIN 18251-1	x
Door Application for:	Public
Latch handing	Reversible (391, 392, & 393 locks are handed)
Latch	Satin stainless steel
Follower 8 mm	Clamp
Follower bearing	Steel bushes
Dead bolt	Satin stainless steel
Anti-saw protection	x
Anti-picking shield	x
Fixing holes	Bushed
Forend	Screwed
Forend SSS	AISI 316g
Fire Rated & Certifire approved	x

x yes - no

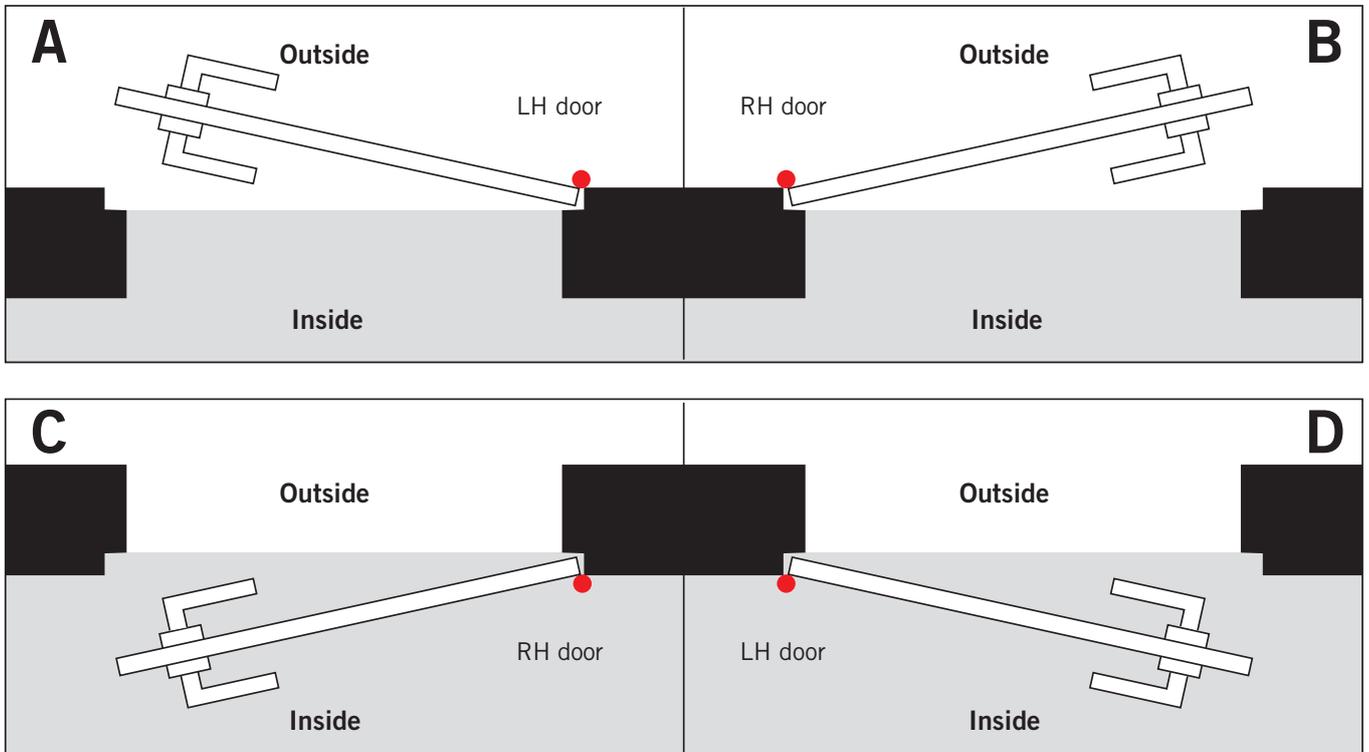

Lock details

Example Classification code to EN 12209 for the 381 CE lock

Mortice locks 381	3	X	8	1	0	G	6	B	C	2	0
Category of use e.g. doors in public buildings											Key identification no requirement
Durability 200.000 cycl./120 N load on latch bolt											Type of spindle operation for unsprung lever handle
Door Mass up to 200kg, closing force 15 N											Key operation and locking Cylinder manually with intermediate
Fire / smoke doors approved											Door application Hinged door
Safety no requirements											Security-drill resistance very high security no drill resistance
											Corrosion resistance very high resistance, NSS 120 h, -20 °C to + 80 °C

Handing data for entrance door sets

dormakaba locks are prepared to be used with the dormakaba OGRO and Pure ranges.

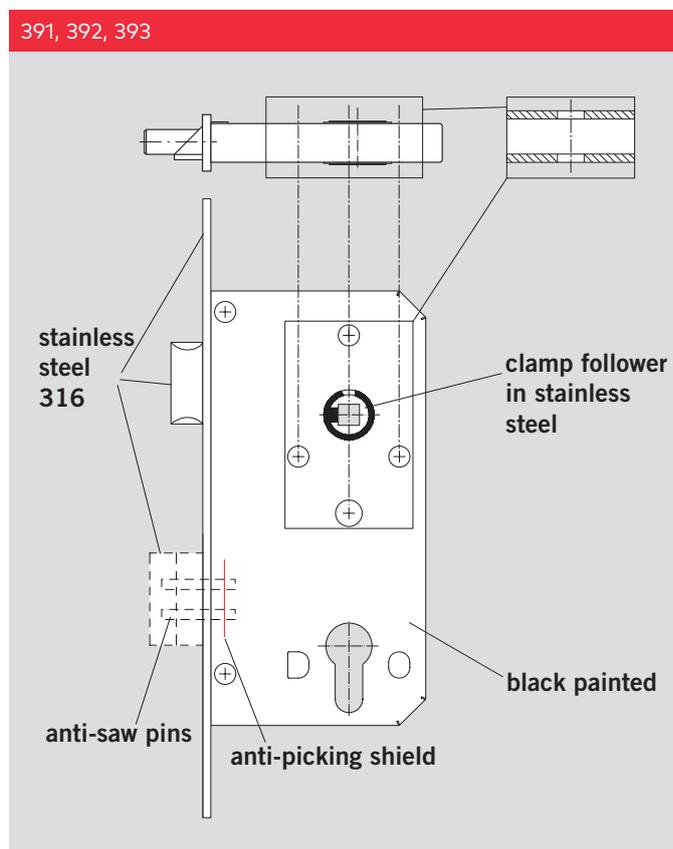

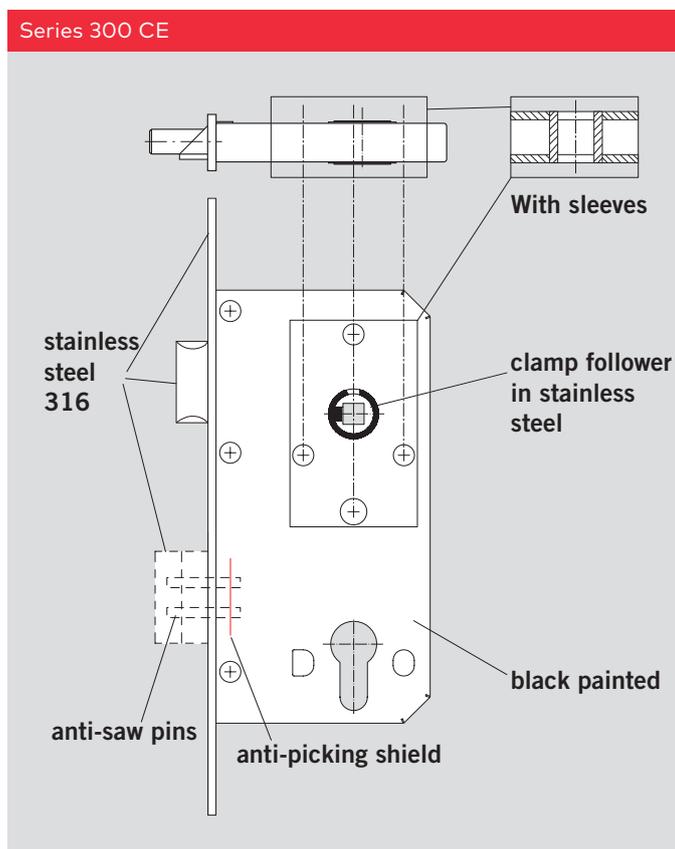

Projects with high demands on function and design.

Mortice Locks

Series 300 CE, 391, 392, 393

Mortice Sashlock 381

Locks for interior and exterior doors, e.g. in public buildings

Features

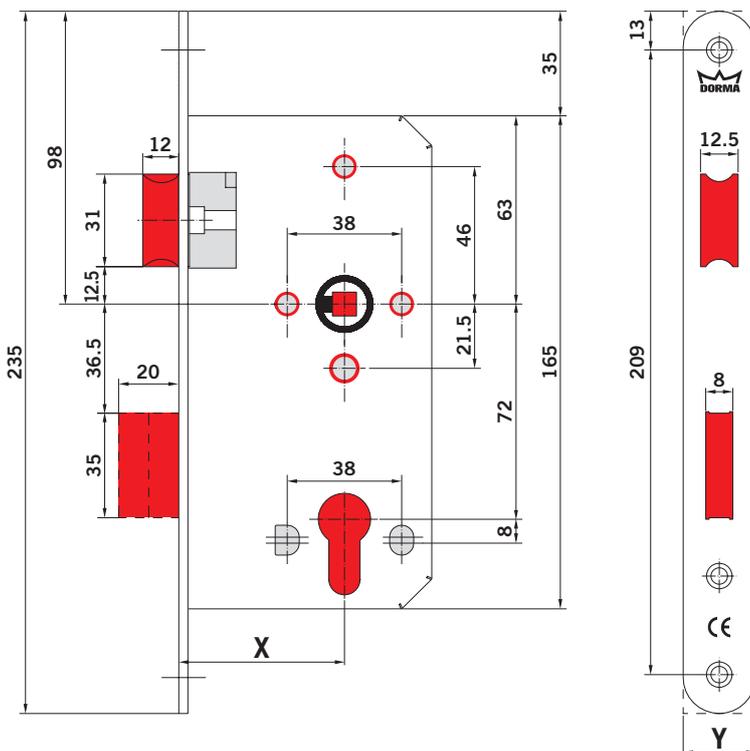

Grade 3 – EN 12209, approved for fire-rated doors with CE certificate and CERTIFIRE Approved CF 267

- Lock case size DIN 18251-1, closed case with sleeves, zinc plated, black painted
- Lock case prepared for Euro profile cylinder (DIN18252) and standard fittings
- Latch handing is reversible
- Latch and dead bolt, stainless steel, satin
- Security dead bolt with hardened anti-saw pins, anti-picking shield
- Clamp follower, stainless steel, 8 mm square hole, with separate bush bearing
- Centered forend, satin stainless steel 1.4401 / AISI 316

Side: non-handed

Classification EN 12209

Mortise WC Lock 385

Locks for bathroom doors, e.g. in public buildings

Features

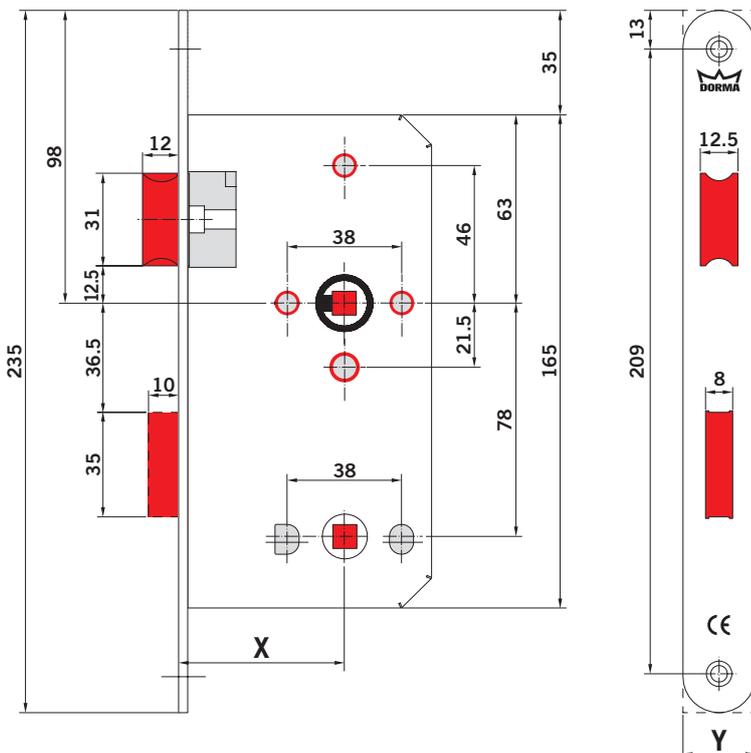

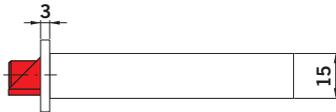

Grade 3 – EN 12209, approved for fire-rated doors with CE certificate and CERTIFIRE Approved CF 267

- Lock case size DIN 18251-1, closed case with sleeves, zinc plated, black painted
- Lock case prepared for thumbturn and standard fittings
- Latch handing is reversible
- Latch and dead bolt, stainless steel, satin
- Security dead bolt with hardened anti-saw pins, anti-picking shield
- Clamp follower, stainless steel, 8 mm square hole, with separate bush bearing and 8 mm bathroom follower
- Centered forend, satin stainless steel 1.4401 / AISI 316

Side: non-handed
