

## Automatic Hand Sanitiser Entry

Touch free sanitiser dispenser linked to your automatic door control

### Description

Touch-Free Skin Care System that provides users with the highest quality foam soap from an attractive touch-free dispenser. This dispenser has an auxiliary connector that will allow for an automatic door to operate once the unit has been activated. A unique and effective solution to ensure health and safety regulations are followed.

### Applications

- Antibacterial Foam Soap is the ideal solution for hand hygiene in food preparation/handling and healthcare environments
- Premises practicing social distancing and following government guidelines for infection control

### Antibacterial Refill

1100ml Foam Soap

With each application, the antibacterial foam soap helps to control the growth of microorganisms on the skin.

Each refill provides up to 2750 hand washes - 5x more hand washes than traditional bag-in-box refills.
