

dormakaba expert cross

Reversible key system

The dormakaba expert cross reversible key system can be customised for the customer on site by authorised local locksmiths. They are therefore also the sole point of contact for key copies. The system expert cross offers very high copy protection and ease of operation. As a serial lock or master key system, it is ideal for securing and organising access to private homes, apartments or small and medium-sized enterprises.

Secure

- High level of security through compliance with relevant standards, for example EN 1303 and DIN 18252
- Long-term protection by European patent EP2890856B1* and FP3280854B1*
- Technical construction protects very well against the most common opening methods

Copy-protected

- Additional cross-shaped recess with movable active element in the key
- Querying of the active element in the lock cylinder to release the closing process

Flexible

- Flexible in its use with basic to complex master key system types
- Optional security elements for even greater protection
- Can be combined with electronic access systems from dormakaba

Certified security and a multitude of possibilities

Certificates

- EN 1303 Key Related Security Grade 6 and Attack Resistance Grade D for versions with steel reinforcement in the housing
- Safety standards/Certificates (expanded):
 - DIN 18252 Grade C and D
 - VdS Grade B+ and BZ+ for corresponding special design
- Fire protection: Lock cylinder tested according to EN 1634-1 and EN 1634-2

Different types of keys with different shapes and functions

Default key with black clip

Key with Largekey clip

Key with nickel silver long key bow

Key with RFID transponder clip for integration into electronic access control systems

Colours as a visual aid

The **key with Largekey clip** is available in 12 colours.

The RFID transponder clips have 6 coloured ring elements for easier identification

Free choice of lock cylinders

The cylinder programme features a wide selection of types to choose from. You can also integrate, for example, cylinder for cabinet locks, key-operated switches or lift controls into the system. Choose between various cylinder surfaces to match your design.

Added value upon request: Special functions

If you have very specific requirements for the complete master key system or individual doors, take a look at our comprehensive range of special functions and special designs. For more details on this, please refer to to the

Special functions for reversible key systems brochure.

Special functions at a glance:

- Key left in the lock?
 Not a problem!
 Lock cylinder with key override on both sides (BSZ)
- Lots of dust in the air?
 But not in the lock cylinder.
 Dust and weather protection (SSW)
- Cold and damp outside?
 Everything dry inside.
 Thermally insulated lock cylinder
 (TIC)
- Heavy use or corrosion? The lock cylinder is equipped for this.
 Chemically nickel-plated version (NIC)

Our Sustainability Commitment

dormakaba is committed to foster a sustainable development along our entire value chain.

In order to give quantified disclosures of a product's environmental impact and its ecological footprint, dormakaba provides Environmental Product Declarations (EPDs).

Please download the EPD and read more about our sustainability commitment here or use the QR code provided.

Environmental product declaration: EPD

- In line with ISO 14025 and EN 15804+A2
- Publisher and declaration holder: Institut Bauen und Umwelt e.V.
