- Operates with a completely sealed contactless reader
- Supports Bluetooth Low Energy (BLE) technology enabling mobile access
- Supports RFID credentials

Overview

The QuantumIV electronic lock offers dormakaba's unique award winning two-piece modular design with an RFID reader for a sleek and elegant appearance combined with superior lock performance.

Mobile access

This Bluetooth Low Energy (BLE) capable lock can operate using the dormakaba Mobile Access Solutions, allowing guests to use their mobile device as their hotel room key.

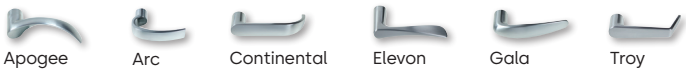

Access control management software

The QuantumIV lock is supported by dormakaba's Ambiance access management software solution for both guest and staff access. Optionally, choose dormakaba's Ambiance RX online access management solution for superior control and monitoring.

Applications

- Suitable for small to very large scale hotels
- Easily replaces existing mechanical or electronic door locks throughout a facility
- Access control for guest rooms, common areas as well as back-of-house
