

EM Series

Electromagnetic door holders

EM Series

Dual voltage capability and an adjustable catch plate provide versatility for varying applications.

The dormakaba EM Series door holders are composed of a door mounted catch plate and a floor- or wall-mounted electromagnet. This series serves as an economical package for use in conjunction with dormakaba door closers whenever controlled release and closing of doors is necessary for safety or convenience such as in hotels, hospitals, and nursing homes.

The EM Series magnets offer superior reliability with built-in protection and low residual magnetism so they release easily even in applications meeting ADA requirements with minimal spring force door closers. Brackets are not required for recessed, flush, or surface mounting. The catch plate on the door features a ball-shaped pivot arm for adjustability to further ensure perfect alignment. Optional extension rods are available to accommodate greater distances between the door and wall.

Technical details

- Dual voltage capability reduces stocking requirements.
- Low current draw allows savings on power supplies and backup batteries.
- Optional extension rods fit on standard catch plate to accommodate deeper door to wall conditions.
- Low residual magnetism allows easy release of door.
- All electrical values +10% to –15%.
- Floor- and wall-mounted styles.
- Can be manually pulled from hold open position.
- Silent operation.
- Holding force 15–25 lb nominal.

Certification

The dormakaba EM Series are listed by UL and CUL under their continuing reinspection programs. California State Fire Marshall (CSFM) approved. The EM Series magnets are certified to conform to the requirements of ANSI/BHMA A156.15 Grade 1.

Specifications

All electromagnetic door holders shall be dormakaba EM Series with wall- or floor-mounted magnets and door-mounted catch plates. Available as surface, flush, or floor mount. Floor-mounted magnets shall be provided for both single and double door applications. Each magnet to have the following voltage capability: 24 VAC or DC and 120 VAC. Specify type of mount.

Optional specifications

- Magnet to have 1-1/2" catch plate extension. Specify ER-1.5.
- Magnet to have 2-1/2" catch plate extension. Specify ER-2.5.
- Magnet to have adjustable catch plate extension. Specify either ER-7 or ER-12.

Finishes

Powder coated finishes

- Aluminum: 689*
- Bronze: 695 (Dark Duranodic)

Painted finish

- 696: Gold (Satin)

*The EM-509 is furnished with a 630 faceplate when ordered in 689 finish.

How to order EM Series

Application		Options (Packaged separately)			*T
Completely flush –	509	2-5/8" Catch plate –	CP LONG		fo
Surface –	508	2" Catch plate –	CPSHORT		
Semi-flush, short catch –	505	8-3/8" to 12" adjustable extentsion –	ER 12		
Semi-flush, long catch –	504	6-3/8" to 8" adjustable extentsion –	ER 7		696
Double floor –	502	2" extentsion –	ER 2.0		695
Single floor –	501	1-1/2" extentsion –	ER 1.5		689
EM	504	24120			689
501		42120	– Dual voltage 24 VDC, 120 VAC		
Series	Electrical specification				

Models

Floor-mount (single door)

Floor-mount (double door)

Semi-flush wall-mount (long catch plate)

Semi-Flush wall-mount (short catch plate)

Surface wall-mount (short catch)

Completely flush wall-mount (low projection)

Accessories

ER-1.5—Catch plate extension

$\frac{1-1}{2}$
 (38)

ER-7—Catch plate extension

$\frac{6-3}{8}$ to $\frac{8}{8}$ adjustable
 (162) (203)

DP PACK—Includes door plate and door plate accessories.

ER-2.0—Catch plate extension

$\frac{2}{2}$
 (63)

ER-12—Catch plate extension

$\frac{8-3}{8}$ to $\frac{12}{8}$ adjustable
 (213) (305)

EM504 24120 illustrated with ER-1.5 catch plate extension. The ER-1.5 increases total magnet projection to 5". The ER-2.5 increases the total projection to 6". Extensions can be used with all models.

CP SHORT—Complete catch plate 1-5/8" projection.

CP LONG—Complete catch plate 2-5/8" projection.
