

SafeRoute Basic Set

Escape route control system

The new SafeRoute Basic supply sets from dormakaba.
With integrated power supply unit in surface-mounted or flush-mounted version.

Order extra safety simply – with just two article numbers.

Use with SafeRoute door locking device

- System-specific locking device STV
- The DCW® system bus means there's no need to hardwire a conventional emergency shutdown circuit

| Item | Article | Order no. |
|------|--|-----------|
| 1 | SafeRoute Basic Set including license card | 56434422 |
| 2 | Door locking device STV 1xx, e.g. STV 101 Silver | 56442101 |

Connection example with optional manual button (e.g. if free accessibility from the other side is required)

Use with analog door-locking device

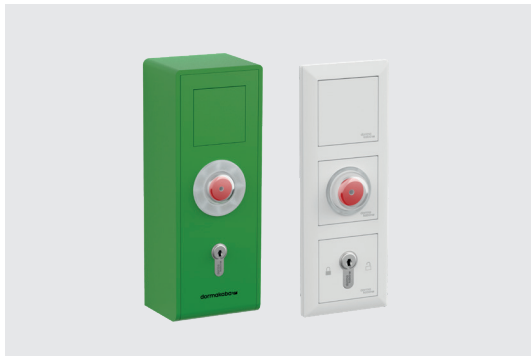

- Adapter included in the scope of delivery
- Connection of EltVTR-approved products with analog switching contacts
- Simple retrofitting of existing systems
- dormakaba holding magnets with particularly high holding forces can be connected

| Item | Article | Order no. |
|------|-----------------------------------|-----------|
| 1 | SafeRoute Basic Set flush-mounted | 56423100 |
| 2 | Holding magnet EM 5300 GL-AH | 19860206 |

Scope of delivery and connection options

- Green surface-mounted terminal or flush-mounted supply set in white
- Includes power supply unit, key switch and Basic license card
- Integrated control functions for dormakaba motorized locks
- Integrated illuminated ring to display the system status

- STV-A adapter
- Adapter for connecting EltVTR-approved analog door locking devices
- Also for connecting EN 13637-compliant analog door locking devices in accordance with SafeRoute system certificates

- Distribution board ST-VP
- Uncomplicated connection of accessories such as hand buttons, access control and on-site analog key switches
- Installation inside the surface-mounted terminal possible
- Flush-mounted installation possible (in a deep flush-mounted box also behind the emergency button)

Advantages in detail:

- Supply set including Basic license card
- Software-free commissioning thanks to factory pre-configuration
- Extensive accessories included in the scope of delivery
- Connectable via optional LON or LAN/TCP-IP accessories
- Integrated control unit for dormakaba motorized locks (single and double-leaf doors), e.g. SVP 2000 F
- Connection of further dormakaba bus devices via the integrated DCW® bus, e.g. second terminal for bidirectional escape routes, IO modules, etc.

Note: Locking cylinder not included in the scope of delivery.

Our Sustainability Commitment

We are committed to foster a sustainable development along our entire value chain in line with our economic, environmental and social responsibilities toward current and future generations.

At dormakaba, we are dedicated to find sustainable solutions that reduce the environmental impact of both our operations and our products. To ensure transparency regarding our products' environmental impacts, we offer credentials such as Environmental Product Declarations (EPD), Health Product Declarations (HPD), and Recycled Content Certificates. These sustainability-related credentials provide insights into energy efficiency, material composition, recyclability, and compliance, empowering our customers to make informed choices and support their own sustainability objectives.
