

Cores and keys

Security, value, and flexibility.

We designed Commercial Hardware keying systems for compatibility with products from a variety of manufacturers, and offer a wide range of keyways and finishes to simplify projects for more applications. From new construction to retrofit, our cores and keys combine the quality and security you expect with the flexibility that makes our products a standout value.

Stronger performance for more applications.

The breadth of keyway options available make it easy to find keys and cores that fit your application. And with more standard finishes to match other hardware and the quality materials that make our products long lasting and more secure, you'll not only enjoy a great value—but also more peace of mind.
