Frequently asked questions

What is the QDB100 & QDB200?

- A. The QDB100 is a grade 1 tubular deadbolt and the QDB200 is a grade 2 tubular deadbolt. The QDB100 & QDB200 are equipped with an ADA thumb turn and have a solid forged housing to provide enhanced strength and durability.

Who is the QDB100 & QDB200 customer?

- A. As a standalone, the QDB100 & QDB200 can be found in applications such as rest stop and state park bathrooms as well as storage rooms. The QDB100 & QDB200 deadbolt is often commonly used in conjunction with cylindrical locks to provide an extra level of security. This opens up the QDB100 & QDB200 to the same cylindrical lock customer base which includes commercial office spaces, residential applications, etc.

Does the QDB100 & QDB200 fit the standard door prep?

- A. Yes, the QDB100 & QDB200 fit the standard door prep (161). In addition, their compartmentalized packaging allows for quick and easy installation.

What functions are offered for the QDB100 & QDB200?

- A. The QDB100 is available in 6 functions (i.e., single cylinder, single cylinder SFIC, double cylinder, double cylinder SFIC, classroom & classroom SFIC). The QDB200 is available in 9 functions (i.e., single cylinder, single cylinder SFIC, double cylinder, double cylinder SFIC, inside turnbolt, indicator, classroom, classroom SFIC & indicator).

What options are offered on the QDB200 that are not commonly offered on similar competitive products?

- A. The QDB285 has an indicator that clearly identifies whether the door is locked or unlocked from the exterior making it ideal for bathroom doors. Additionally, the QDB280 & QDB288 are available to order with a Re-Key keyway that allows for the owner to easily re-key the lock combination from the outside without having to take the lock or trim apart. This is especially useful in multi-family applications where residents may leave and take their keys with them.

What unique features are offered on the QDB100 & QDB200 that make it less susceptible to break-ins?

- A. The QDB100 & QDB200 have a 1" latch bolt with a hardened steel roller pin inside providing saw-resistance. Additionally, the non-IC deadbolts have an anti-drill design that entails two ball bearings inserted in the deadbolt to prevent against drill attacks.

What door thickness range can the QDB100 & QDB200 accommodate?

- A. The QDB100 comes standard to fit doors 1-5/8" – 2" thick. The QDB200 comes standard to fit doors 1-3/8" – 1-3/4" thick. QDB200 SFIC require thin door spacers (8Q00082) for 1-3/8" doors. QDB100 and QDB200 double cylinder SFIC also require thin door spacers (8Q00082).

What back sets are available for the QDB100 & QDB200?

- A. The QDB100 & QDB200 can be ordered with a 2-3/8" or 2-3/4" back set dead locking latch. In addition, square, radius and narrow latches are available to choose from. The QDB200 is available to order with a 6-way adjustable latch that allows for changes between 2-3/8" and 2-3/4" back sets as well as square, round and no face plates.

Does the QDB100 & QDB200 come with a core?

- A. The QDB100 & QDB200 can be ordered with a Small Format Interchangeable Core (SFIC) or as Less Cylinder.

What keyways are available to order on the QDB100 & QDB200?

- A. The QDB100 & QDB200 is available to order with the following keyways: BEST "F" SFIC, Kwikset "KW", Weiser "E", Schlage "C", Yale "GA" and Sargent "LA". Additionally, the QDB280 & QDB288 are available to order with a Re-Key keyway.

What finishes are offered for the QDB100 & QDB200?

- A. The QDB100 & QDB200 are available in 5 finishes: 605, 613, 619, 625 & 626.

What is the lead time for a QDB100 & QDB200?

- A. The average lead time for a QDB100 & QDB200 is less than 2 weeks.

What warranty does the QDB100 & QDB200 have?

- A. The QDB100 & QDB200 have a limited lifetime mechanical warranty and a 3 year finish warranty. The 613 finish is not covered under the 3 year finish warranty.
