PUSH & PULL DIGITAL DOOR LOCK
DP850

DP850 lock is a newly designed premium push and pull intelligent door lock. This lock is equipped with convenient push & pull handle and high secure automatic motorized mortise. The push & pull handle offers brand new experience with no fixed direction to open the lock.
It has a fingerprint sensor on push and pull handle, offering single hand opening experience. The series has Bluetooth Low Energy (BLE) feature, allowing user to open the door using their mobile app & share valid password to other users.
