

dormakaba lever handles and locks accessories - 7 series and 8 series

Issued to

dormakaba Sverige AB

F O Petersons Gata 28, SE-421 31 Västra Frölunda, Sweden

Product name and description

Lever handles and locks accessories of Zamak coated with chrome in the 7 series and of stainless steel in the 8 series.

Certification

The products described above fulfil the requirements related to nickel release value (limiting value) of max 0.5 µg/cm²/week in accordance to EN 1811:2011+A1:2015.

The certification is based on RISE test report 8F022888-01 and 8F022888-04.

Marking

Each sample that conforms in all respects with the original product certified may display the text "Type-examined by RISE". In addition, manuals and marking shall also show the number of the standard, the limiting value (nickel release ≤0.5 µg/cm²/week), the number of this certificate and the serial number or equivalent of the product.

Validity

This certificate is valid until 13th November 2023.

Miscellaneous

Other terms and conditions are set out in RISE certification rules for type-examination, SPCR 123.

This type examination certificate may be used by all companies in the dormakaba Group.
