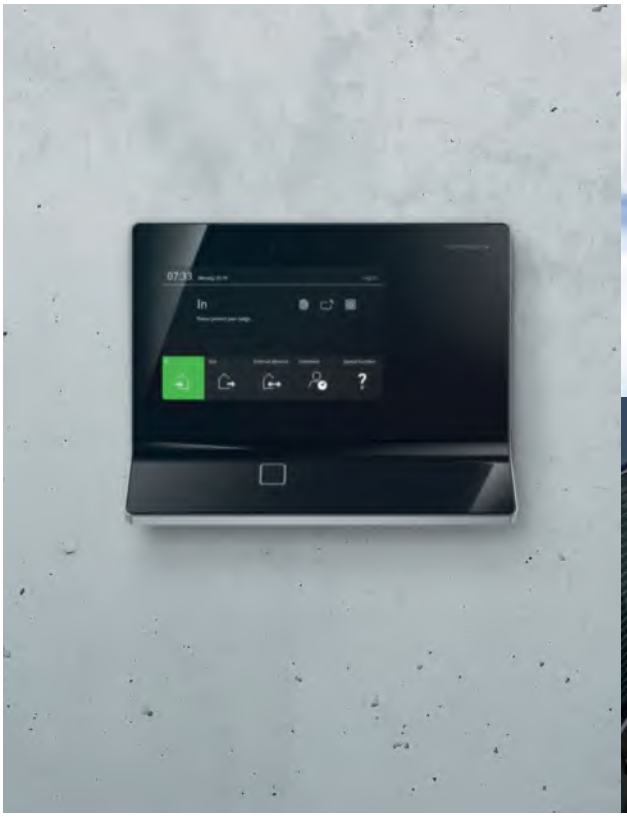
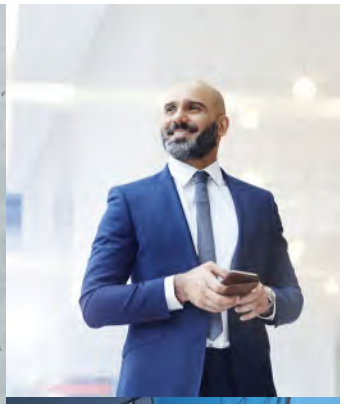
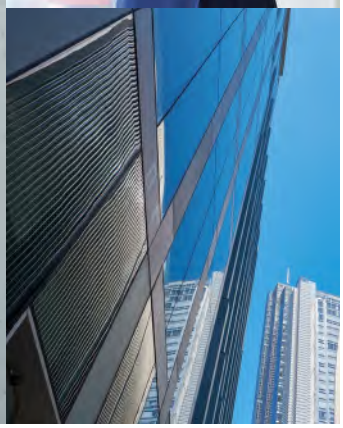
# B-Comm ERP 5
## Microsoft Dynamics AX







**Advantages at a glance**

- Fully web-based software solution
- Modern web service interface for the exchange of master data and entries between Microsoft Dynamics AX and dormakaba b-comm ERP 5
- Management and entry of master data exclusively in Microsoft Dynamics AX
- Data recording and validation with dormakaba terminals – even when Microsoft Dynamics AX is not available
- Management of time, shop floor data collection and access control information in Microsoft Dynamics AX

**Solution for time and attendance, shop floor data collection and access control**

dormakaba b-comm ERP 5 – Microsoft Dynamics AX is the dormakaba solution for time recording, shop floor data collection and access control for Microsoft Dynamics AX. The solution includes a user dialogue specially developed for Microsoft Dynamics AX as well as a web-service-based interface to dormakaba b-comm ERP 5. The main advantage of dormakaba b-comm ERP 5 is that there is no need to duplicate entry of data for people and orders as Microsoft Dynamics AX is the leading system of its kind.

One main feature of the way in which dormakaba b-comm ERP 5 works is its communication with the dormakaba terminals and validation of time and order data before this is transferred to Microsoft Dynamics AX.

Individual functions or functions not supported by Microsoft Dynamics AX are implemented quickly and easily thanks to the business logic in dormakaba b-comm ERP 5. This saves time and money as you do not need to implement special functions or carry out potential post-processing or troubleshooting in the ERP system, avoiding a laborious process. Recorded data is immediately processed in Microsoft Dynamics AX.

Operation of dormakaba b-comm ERP 5 is completely web-based and effortlessly simple. Settings for dormakaba b-comm ERP 5 are made via your web browser.

The integrated role-based authorisation module ensures a high level of security when the application data is being accessed. Supplementary software modules for time and shop floor data collection enhance the solution.

**Factsheet**
