

B-COMM for PeopleSoft

Higher education

dormakaba's B-COMM is the solution of choice for many higher education institutions

A solution for a diverse workforce

Colleges and Universities strive to offer a quality education to their students, while competing in today's challenging economy. In the midst of rising costs, staff shortages, and increasing enrollment, institutions require solutions that can maximize their workforce while controlling labor costs. B-COMM for PeopleSoft is a validated Oracle communication software that links PeopleSoft Time and Labor to a range of data collection devices, allowing companies to collect, evaluate and manage time entry. The solution provides secure bi-directional

communication via standard API's.

This innovative data collection approach results in substantial savings by controlling the environment from which employees can enter their time. Managers also have real-time visibility to (relevant) critical information previously shared only with payroll and finance departments.

B-COMM for PeopleSoft provides a centralized timekeeping solution for institutions with a dispersed workforce. Its intuitive user interface improves workforce productivity by simplifying the time and

data collection process. By implementing dormakaba's B-COMM solution, colleges and universities automate administrative processes, and in turn reduce operation costs.

An Enterprise-class Solution B-COMM by dormakaba

Transactions

Validation data (PS to B-COMM)

- Personnel information
- Schedule
- Restriction & task profiles
- Time reporting code
- Total hours
- Reporting elements
- Task templates
- Supervisory

Transaction data (B-COMM to PS)

- Punch time interface
- Punch task interface
- Elapsed time interface
- Elapsed task interface

ERP Integration

- PeopleSoft time and labor*

* Versions: 8.3, 8.8, 8.9, 9.0, 9.1, 9.2

Validated Integration

PeopleSoft
