# B-COMM
for PeopleSoft Time and Labor

ORACLE®
Validated Integration
PeopleSoft

Product features include:

- Connection to PeopleSoft Time and Labor from dormakaba or third-party time collection devices
- Simple, intuitive interface for improved user acceptance and accuracy
- Ability to record employee punch time—clock in, clock out, start break, start meal, transfer; punched time may also include labor (task) data
- Ability to record employee elapsed events—vacation time, sick days, jury duty, holidays, etc.; elapsed time may also include labor (task) data
- Task data may be in the form of a simple task name or may be multilevel recording.

B-COMM for Oracle's PeopleSoft Time and Labor Validated Integration with Oracle's PeopleSoft 9.2

Streamline Your Time and Labor Data Collection for Oracle's PeopleSoft with B-COMM for PeopleSoft Time and Labor.

B-COMM for PeopleSoft—your one-stop global solution provider for data collection and validation for Oracle's PeopleSoft Time and Labor.

Company overview
dormakaba Workforce Solutions is a leading global provider of workforce management solutions to a wide range of industries. Building on the company's foundation of automated workforce management (WFM) tools, dormakaba provides systems that

allow clients to efficiently collect, validate, and process workforce time and labor information for enterprise systems optimization. Automation is accomplished through a suite of flexible products that include B-COMM communications software, dormakaba badge-based and biometric data collection terminals, and various third-party devices that allow for mobile data collection.

Integration overview
B-COMM for PeopleSoft is communication software that links Oracle's PeopleSoft Time and Labor to dormakaba time-collection

terminals to automate and validate the collection of employee data. Automating the data collection process results in substantial savings to your company because time and labor information is collected, validated, and sent to PeopleSoft Time and Labor in a timely and accurate fashion, eliminating delays and errors.

Factsheet

Through the Oracle PartnerNetwork, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.
