

E-Plex 2000

Standalone pushbutton Lock

Reliable standalone pushbutton lock

The E-Plex 2000 Series provides exterior access by combination, while allowing free egress. This electronic pushbutton lock eliminates problems and costs associated with issuing, controlling, and collecting keys and cards. It has up to 100 access codes that are simply and quickly programmed via the keypad or with optional Microsoft Excelbased software. E-Plex 2000 locks are powered by 3 AA batteries that load into a slide-up battery tray in the housing, which

eliminates wires needed at the door and allows for continuous operation up to 100,000 cycles depending on frequency of use.

Provides exterior access by PIN code, while allowing free egress. Eliminates issues and costs associated with managing credentials or keys. The lock's traditional telephony style keypad and simple programming options provide convenient, cost efficient and durable access control.
