

Barrel bolts, Panic bolts and Flush bolts

The perfect
solution to
secure an
inactive leaf.

The finishing touches for your door

Panic Bolts, Barrel bolts and Flush Bolts

Panic Bolts, barrel bolts and flush bolts are a requirement for securing an inactive leaf on a double door or cupboard. dormakaba's range of bolts have a solution for every application.

Cupboards and cabinetry are often required to be secured. To keep the inactive leaf closed, consider the dormakaba range of barrel bolts and neck bolts. These are available in 150mm, 200mm, 300mm and 600mm lengths. The dormakaba neck bolts are available in 150mm and 300mm lengths, and available in a satin nickel plate finish.

Panic bolts, sometimes referred to as skeleton bolts are used on the inactive leaf of double doors. Typically, where the use of barrel bolt is insufficient and extra strength and durability is required. They are vertically installed on the face of the door and available in 300mm, 450mm and 600mm lengths both visible and concealed versions. The offset version is available in 600mm lengths. The dormakaba panic bolt range is available in satin nickel plate finish.

When looking to secure an inactive leaf without a panic bolt being seen on the door, the dormakaba flush bolts are the perfect solution. They are discreetly installed on the edge of the door, and available in 150mm, 300mm, 450mm and 600mm lengths. The dormakaba flush bolts are available in a satin nickel plate finish.

Automatic flush bolts are a necessity when a fire rated double door is required to be self closing. Paired with either a dormakaba sequence selector or a dormakaba TS93 GSR sequencing door system, the dormakaba AF667 automatic flush bolt will safely secure your door.

Barrel Bolt

2750

Barrel Bolt

Surface mounted barrel bolt supplied with frame keeper and floor plate.

Features:

Bolt housing contains a ball bearing for positive and smooth movement with a 25mm throw.

Available lengths:

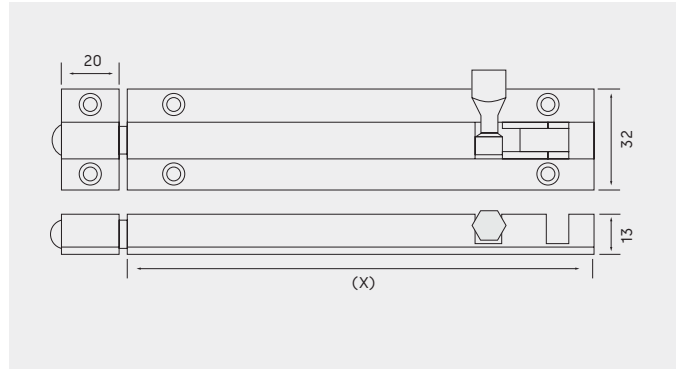

2750 - 150mm

2750 - 200mm

2750 - 300mm

2750 - 600mm

Finish: SNP

2751

Necked Barrel Bolt

Surface mounted necked barrel bolt supplied with floor plate keeper.

Features:

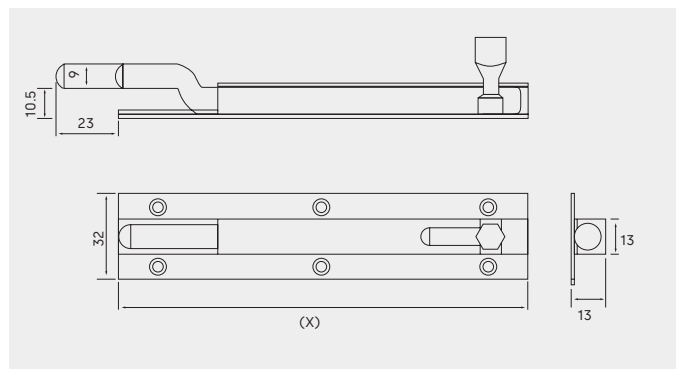

Bolt housing contains a ball bearing for positive and smooth movement with a 23mm throw.

Available lengths:

2751 - 150mm

2751 - 300mm

Finish: SNP

2752

Long Throw Barrel Bolt

Surface mounted barrel bolt supplied with frame keeper and floor plate.

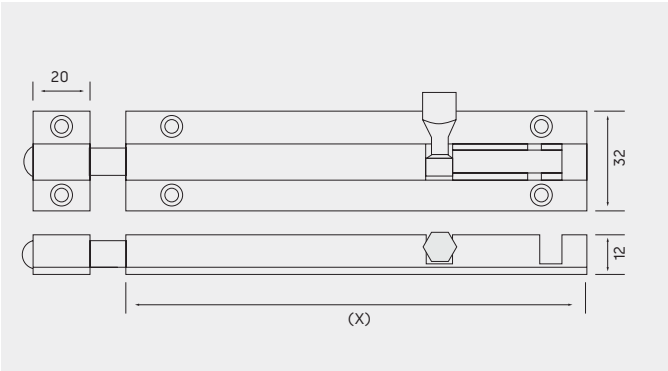

Features:

Barrel bolt with long throw of 40mm. Bolt housing contains a ball bearing for positive and smooth movement

Available lengths:

2752 - 150mm

Finish: SNP

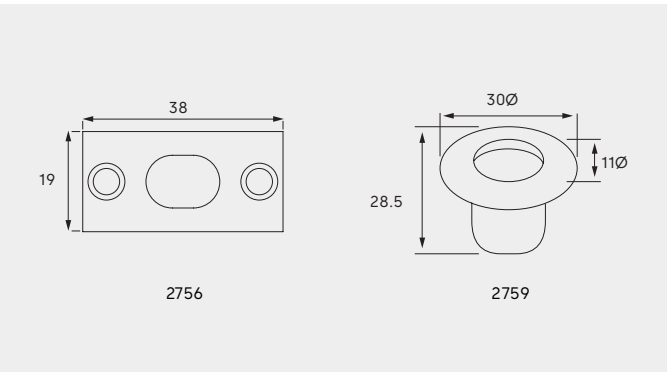

Accessories

Optional accessories

- 2756 Floor plate
- 2759 Top hat ferrule*

Finish: SNP* | SSS

Panic Bolt

2780

Panic Bolt

Surface mounted panic bolt (skeleton) with concealed fixing, frame keeper and floor plate.

Application

For use on the inactive leaf of double doors where a more robust and stronger bolt is required.

Features

Concealed panic bolts offer greater aesthetics and are highly suitable for doors with lesser stile widths. Standard throw is 50mm.

Available Lengths (x)

2780 - 300mm

2780 - 450mm

2780 - 600mm

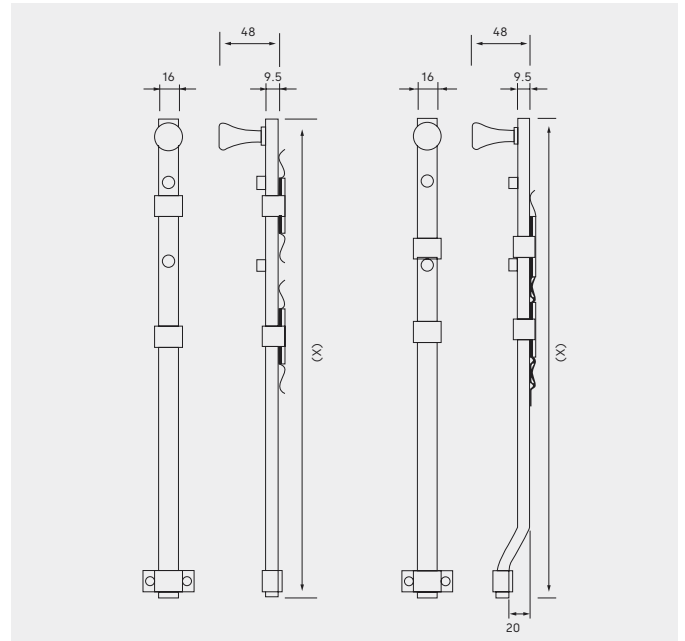

Offset Option

Surface mounted panic bolt (skeleton) with concealed fixing and 20mm offset

Available Offset Lengths (x)

2780 - OS - 600mm

Finish: SNP

2790

Panic Bolt

Surface mounted panic bolt (skeleton) with visible fixing, frame keeper and floor plate.

Application

For use on the inactive leaf of double doors where a more robust and stronger bolt is required.

Features

Standard throw of 50mm.

Available Lengths (x)

2790 - 300mm

2790 - 450mm

2790 - 600mm

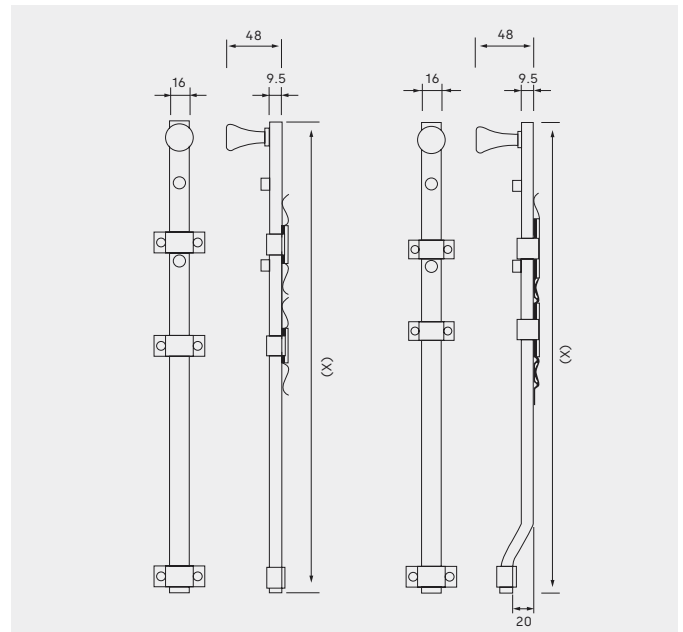

Offset Option

Surface mounted panic bolt (skeleton) with visible fixing and 20mm offset

Available Offset Lengths (x)

2790 - OS - 600mm

Finish: SNP

Flush Bolt

2901

Flush Bolt

Flush bolt for edge mounting or face mounting on double doors

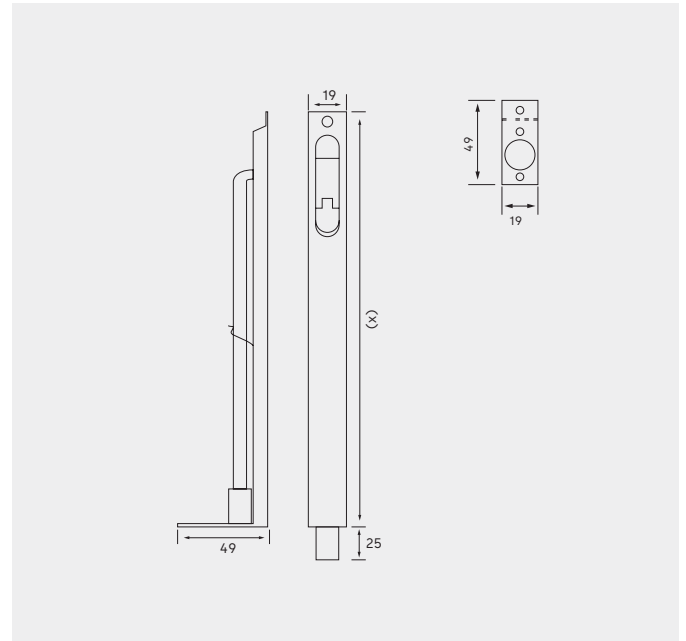

Features

Slim flush bolt enabling installation to doors of 32mm thickness. Extended shoe with break off and includes standard keeper plate. Bolt throw is 25mm.

Available Lengths (x)

150mm
300mm
450mm
600mm

Finish: SNP

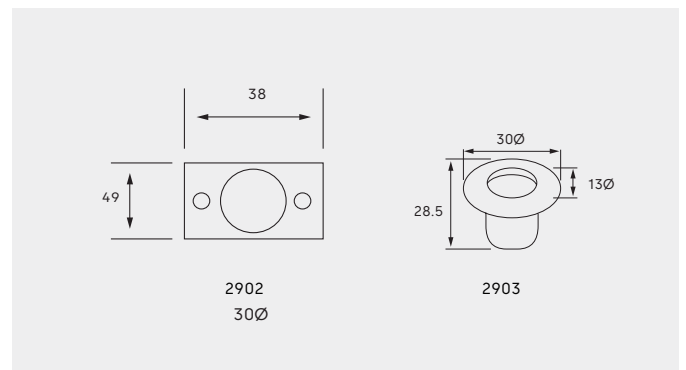

Flush Bolt Accessories

Optional accessories

2902 Standard keeper plate
2903 Top hat ferrule*

Finish: SNP* | SSS

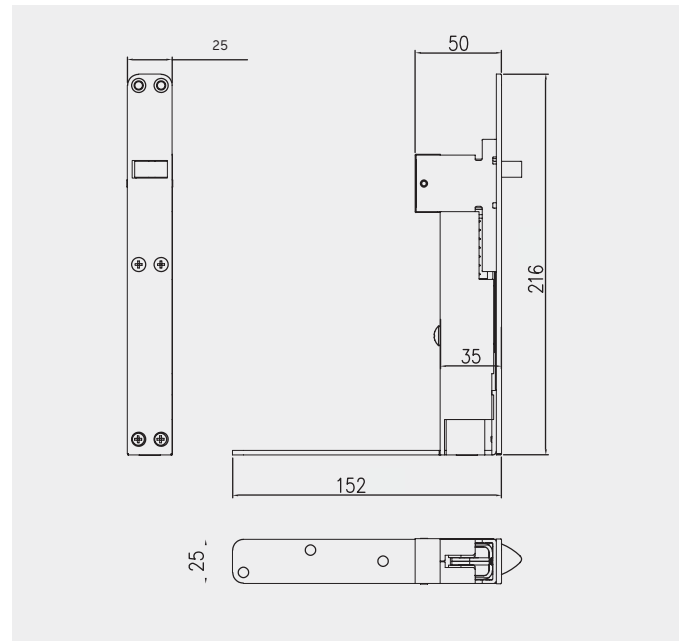

AF667

Features

The dormakaba Auto Flush Bolt is developed to be used in a double door application. Designed to fit the inactive leaf, the auto flush bolt has an auxiliary latch that when activated by the closure of the active leaf throws a solid stainless steel bolt into a floor and/or head mounted strike plate. Upon opening of the active leaf the bolts will automatically retract and allow the operation of the inactive leaf.

Most commonly used on fire and smoke door applications (AF667 model).

Finish: SSS
