

# RCI 12C

## Compact strike

### Features

- Quick and easy install
- Ideal for wooden, steel & aluminum frames
- Non-handed
- Versatile, compact design
- Replaces standard, non-electrified T-strikes
- Maintains integrity and strength of the door frame
- Brushed Stainless Steel (32D) finish
- Can accommodate 1/2" (13mm) latch projection

The 12C compact strike is a versatile solution that is suitable for many types of door frames. Its compact size makes it especially suitable where installation conditions are limited such as narrow door frames and/or aluminum frames that often have tight spaces and where standard strikes will not fit.

Their compact size offers an aesthetic, less noticeable appearance, which is ideal for modern designs found in offices, galleries, and many residential buildings. The 12C is easier to install, making it a good choice for retrofit applications because it minimizes the need to cut or modify the frame, preserving door integrity and reducing installation time.

The RCI 12C strike replaces standard, non-electrified, T-strikes with a quick and easy to install electric version. Plus, it can accommodate 1/2" (13mm) latch projection. With compact design dimensions of 1-13/16"W x 2-3/4"H x 1-1/8"D, the 12C is ideal for virtually all wooden, steel, and aluminum door frames.

**Energy**  
90mA, 12VDC

**Strength**  
1,100lbf Static  
44ft-lb Dynamic

**Mode**  
Fail-secure

**Warranty**  
1 Year limited warranty

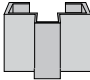

**Dimensions**  
1-13/16"W x 2-3/4"H x 1-1/8"D  
(46 mm x 70 mm x 28 mm)

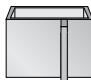

The versatile, 12C Compact strike is suitable for all types of door frames.  
Designed to be fitted in place of an entrance set strike plate.

- Applications**
- Commercial centers
  - Industrial buildings
  - Educational facilities
  - Retail outlets
  - Health care facilities
  - Office complexes

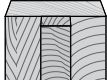

**Frame type**

Hollow metal

Aluminum

Wood
