# Access made simple, secure and scalable

dormakaba resivo business

One solution. Endless possibilities.

resivo business is the intuitive, cloud-native access control solution designed for smaller businesses, organizations and mixed-use buildings.

Easy to set up, effortless to use and built to grow with you, it puts secure digital access at your fingertips – anytime, anywhere.

From cafés to co-working spaces, studios to schools, resivo business makes managing multiple doors and users simple, flexible and future proof.
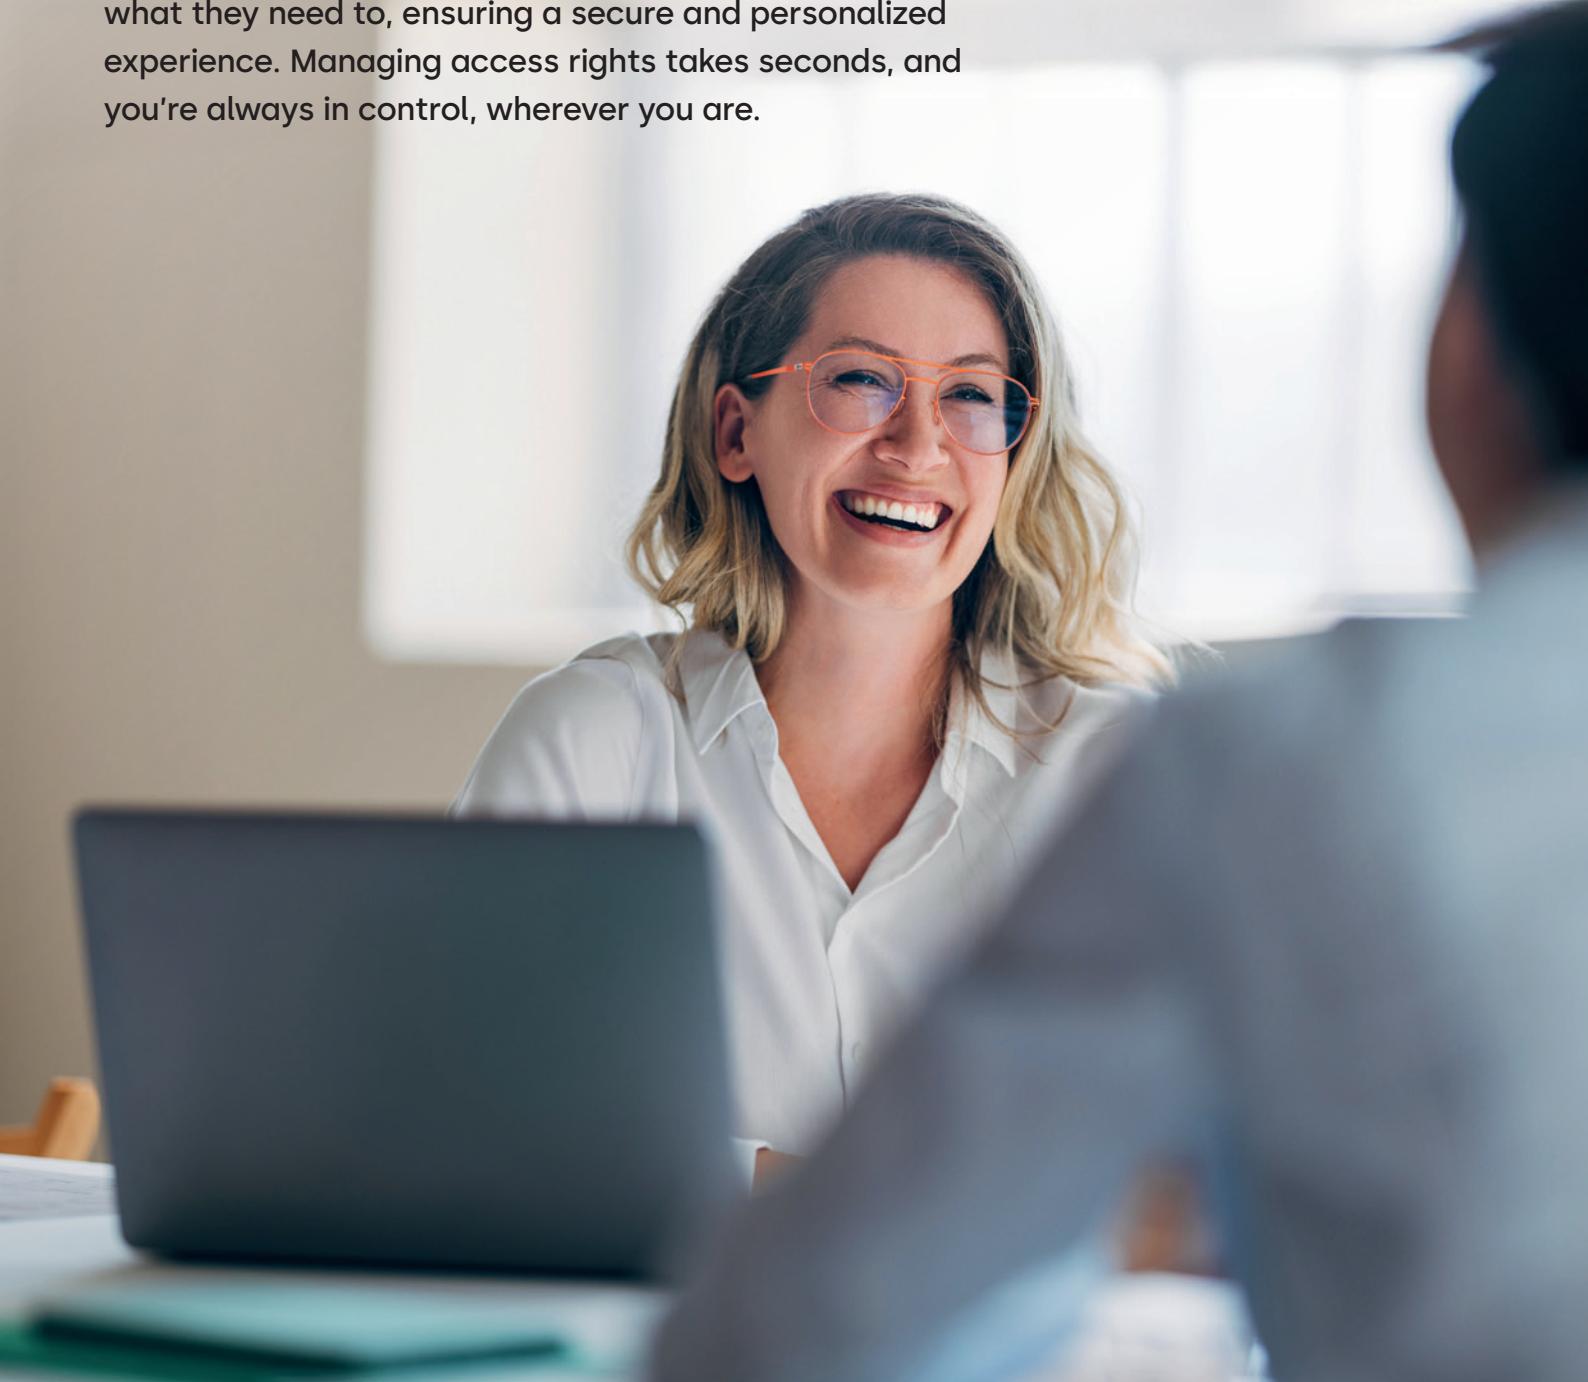

Seamless shared access

Modern buildings often have many different users – businesses, residents, service providers and visitors – all needing access to shared doors.

resivo business makes this seamless. Each organization has its own secure environment, contract and billing, yet can still share access points like entrances, lobbies, parking and garages. No duplicate hardware. No exposing sensitive data.

Unlike other solutions, resivo business keeps every organization fully in control without compromising security and people flow.

Access in just a few clicks

With resivo business, access control is effortless. The cloud access portal is clear, intuitive and tailored to individual users – whether its reception staff issuing visitor passes, shop owners managing schedules, or tenants and real estate managers updating their access rights. Each user sees only what they need to, ensuring a secure and personalized experience. Managing access rights takes seconds, and you're always in control, wherever you are.

The benefits with resivo business

resivo business is more than a digital access solution – it's an intuitive platform that adapts to your needs today and as they evolve.

Simple to use
Grant, change or revoke access in just a few clicks.

Flexible
Works for single businesses, shared premises, schools and co-working.

Scalable
Add new doors, users and sites as your organization grows and evolves.

Secure
Replace physical keys with digital credentials and reduce the hassle of loss or duplication.

Mobile
Manage access in the browser which is optimized for any device.

Connected
Integrate with booking systems, time recording and building management through open APIs.

The cloud-first, future-ready SaaS solution

resivo business is delivered entirely as Software-as-a-Service. That means no local servers to install, patch or maintain, and no hidden costs when your business grows. It's always up to date, always secure, and always improving with new features and security updates delivered automatically in the background. You benefit from predictable costs, digital billing and enterprise-grade resilience – all without adding complexity for your team.

Effortless integration of access control hardware of resivo business

Choose the setup that works for you: wired or wireless. resivo business integrates smoothly with dormakaba's proven access control components, including:

01
Electronic door locks c-lever pro and c-lever compact

02
Digital cylinders

03
Compact readers and registration units
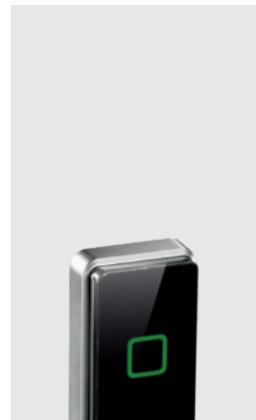

04
Access managers

05
Wireless gateways

This broad portfolio gives you the flexibility to equip each door in the way that suits you best – and the reassurance that every component is backed by dormakaba expertise.

Our Sustainability Commitment

We are committed to foster a sustainable development along our entire value chain in line with our economic, environmental and social responsibilities toward current and future generations. Sustainability at product level is an important, future-oriented approach in the field of construction. In order to give quantified disclosures of a product's environmental impact through its entire life cycle, dormakaba provides Environmental Product Declarations (EPD), based on holistic life cycle assessments.
