

# resivo business

The simple cloud access solution for small companies and organizations

**resivo business – access has never been so easy.**

The cloud-based access solution offers all the essential functions you need to manage doors and access rights – intuitively, securely, and with no expert knowledge required. resivo business provides a cost-effective, easy-to-understand, and future-proof access solution for small and medium-sized organizations.

It's so easy to use that anyone can get started right away and enjoy the benefits of a true cloud solution.

**Who is resivo business best suited for?**

resivo business is ideal for small and medium-sized organizations that view ease of use, quick setup, and flexible use as key priorities:

- Schools and training centers, clubs, fitness studios
- Coworking spaces, small or shared offices
- Cafés, small shops, restaurants
- Daycare centers, private learning centers, and small educational institutions
- Mixed-use buildings with residential and commercial use (e.g., café on the ground floor, apartments above, office space next door)

# What sets the resivo business access solution apart

## Easy to use

The cloud access portal's intuitive user interface lets you grant, change, or revoke access in just a few clicks – no IT knowledge required.

## Location-independent

Access management can be controlled remotely at any time via web browser.

## Flexible application scenarios

Suitable for sole traders, teams, or shared premises (e.g., shared main entrances to shops and residential areas).

## Scalable & adaptive

Grows with your requirements – whether new doors, changing users, or different role models.

## Open interfaces (API)

Can be easily integrated into existing systems – e.g., booking platforms, time recording, or building management.

## Digital keys

Greater security with less effort: Access rights can be time-limited, revoked, or assigned spontaneously – without the risk of losing keys or copying issues.
