General Features

- Successfully independently tested and CE Marked to BS EN1154
- Adjustable sweep speed
- Adjustable latching speed
- CERTIFIRE approved for fire doors

TS71 Features

- Selectable closing force EN3/4
- Maximum Door Width 1100mm

TS72V Features

- EN2-4 Adjustable Closing Force
- Maximum Door width 1100mm
- Adjustable power and high efficiency mechanisms resulting in low opening forces to assist compliance with Approved Document M (ADM) in England and Wales / Section 3 in Scotland / Part R in Northern Ireland and BS8300 without compromising fire safety
- This closer, when fitted at size EN3 (minimum for fire doors) will produce an opening force of less than 30N when fitted to doors 833mm wide or above

TS72V BC Features

- As above plus
- Adjustable 'Thinking' Backcheck
