

# Product Discontinuation Notice

## 96 00 and 97 00 Terminals

We are committed to offering our customers and end-users the most innovative solutions. We consistently analyze and optimize our product portfolio to improve existing products, develop new solutions, and identify which products are nearing the end of their lifecycle.

### K6 Generation End-of-Sale Notice

With the launch of the K7 generation data collection terminal line in 10.1" and 5" models, and due to some component obsolescence from suppliers, the K6 generation is being discontinued. For planning purposes, the 96 00-K6 terminals will remain available for purchase by existing customers until **June 30, 2026**, or until the supplies are depleted which may happen sooner. Similarly, sales of the 97 00-K6 will end on **December 31, 2026**, or sooner if inventory is depleted. The important item to note is that the K6 terminal line will continue to function with current and future versions of your B-COMM® software.

Please plan your future deployments accordingly and contact your dormakaba Account Manager if you have any questions.

### Recommended K7 Transition Path

Terminal	Recommended Upgrade
96 00 (K6 generation)	96 00 (K7 generation)
97 00 (K6 generation)	98 00 (K7 generation)
