

QuantumIV™

Electronic hotel lock

Features

- High security and tamper-proof design
- Optional Automatic Deadbolt
- Extensive event memory in the lock
- Tracking mortise for door ajar reporting as an option
- Emergency access: emergency key, mechanical key and electronic override
- Usage detail stamp in real-time with date/hours/minutes
- Wear resistant construction and finish
- NFC programming
- AA alkaline batteries, last up to 2 years
- Low battery indicator alerts staff
- Lock programming and audit records are not erased during battery replacement
- Operates with a completely sealed contactless reader
- Supports Bluetooth® Low Energy, enabling mobile access
- Supports RFID credentials
- Supports digital wallets

Overview

The QuantumIV electronic lock builds on dormakaba's proven two-piece modular design, offering a refined, elegant look and reliable, high-performance operation with an integrated RFID reader.

Next-generation technology with RFID and mobile access solutions

With built-in RFID, NFC, and Bluetooth Low Energy, the QuantumIV door lock supports RFID cards, mobile keys, and digital wallets. Guests can use their smartphone as a key, enabling convenient check-in and intuitive access.

Access control management software

The QuantumIV lock is supported by dormakaba's Ambiance access management software solution for both guest and staff access. Optionally, choose dormakaba's Ambiance RX online access management solution for superior control and monitoring.

Applications

- Suitable for small to very large scale hotels
- Easily replaces existing mechanical or electronic door locks throughout a facility
- Access control for guest rooms, common areas as well as back-of-house
